#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

OFFICE ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,3,6,7,8 are rejected under 35 U.S.C. 102(b) as being anticipated by Sanford et al. 5,335,796 or Edgerton 6,283,312. Sanford et al teach a plurality of pinch barriers 16 on a rack 10 that is capable of pinching a portion of an envelope package between the barriers. Edgerton teaches a plurality of pinch barriers between gaps 34, wherein the gaps are able to pinching a portion of an envelope package. It should be noted that both Sanford et al. and Edgerton are preloaded.

Claims 4,5 rejected under 35 U.S.C. 102(b) as being anticipated by Sanford et al. 5,335,796 et al. Sanford teach the device claimed and as described further including a carousel arrangement capable of rotation as best seen in Figure 2.

Newly submitted claims 9-15 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Group I, claims 1-8 pertain to merchandiser packaging. Group II, claims 9-15 are related to a method of packaging. These groups are related as subcombinations usable together. The particular steps of the method recited are not required for the merchandiser packaging article claims and were not presented with the original claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for

Art Unit: 3634

prosecution on the merits. Accordingly, claims 9-15 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

#### RESPONSE TO APPLICANT'S REMARKS

Applicant argues that the art applied is not functional for applicant's purpose. The examiner disagrees and would point out that applicant is arguing that which has not been positively claimed. The envelope packages referred to are not positively claimed. Furthermore, the examiner asserts that even if the envelope packages were positively claimed, the art would still apply since size of the envelope packages are variable according to the article packaged.

This is an RCE of applicant's earlier Application No. 10/622,418. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3634

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
